

## Demographics and Market Data

WE PROVIDE ON DEMAND REPORTS, MAPS AND CONSULTING SERVICES TO ENSURE YOU HAVE THE INFORMATION YOU NEED TO MAKE SOUND BUSINESS DECISIONS

### Our Services

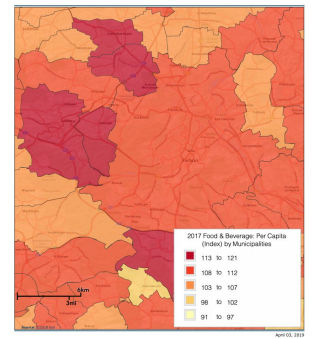

Our on demand reports cover over 130 countries throughout the world and can be ordered directly through our website. With data sources like ESRI, Environics Analytics, Michael Bauer Research and government sources, you can rest assured that you have access to the highest quality data available. These data in each country are available from a country wide level, down to the municipal or sub-municipal level in most cases.

If you need more extensive data than is represented in available on demand reports, we are here to help. Through our consulting services, we have access to many more variables than are available in our standard reports (over 6,000 in the U.S. alone). With data mapped to the sub-municipal level, we are able to target and visualize analysis to help you make better decisions.

### Our Deliverables

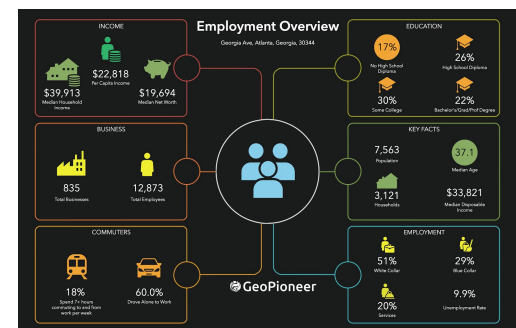

- Demographic and Market Reports On Demand
- Infographics
- Static Map Development
- Web Map or Web App Development

GeoPioneer Food and Beverage Consumption

GeoPioneer Japan Housing and Household Summary (Est. Japan)

2017 Household Type (Count)	Count	Percentage	Ratio
