

## Geopolitical Event Mapping and Data Service

WE PROVIDE DAILY MAPPING OF GEOPOLITICAL EVENTS WORLDWIDE USING OPEN SOURCE INTELLIGENCE (OSINT)

### What is included in this mapping service?

- New events are entered 365 days a year
- Hundreds of events are mapped weekly, from the local to national level
- Over 75 Terror or Insurgent organizations are tracked
- Over 85 Event Types are tracked
- Event data includes: Incident Type, Event Type, Event Name, Event Summary, Location Quality, Location Scope, Terror/Insurgent Group Involved, Military and Police Fatalities/Wounded, Civilian Fatalities/Wounded, Terror/Insurgent Fatalities/Wounded, Number Arrested, Number Convicted, Number Sentenced, Number of Protesters, Number of Hostages, Number of Hostages Recovered and Link to Information Source

### Where do you get your information?

We utilize web crawlers that bring in the best open source intelligence (OSINT) from around the world. Our analysts then comb over and validate thousands of reports from outlets like Reuters, AFP, Xinhua, AP and local media/government sources. By utilizing real analysts to validate this data, you can be sure that you are getting the best geopolitical data available in an unclassified environment.

### How can I access this information?

You can utilize our own GeoPioneer Geopolitical Event application, DisasterAWARE Enterprise or even leverage our API to bring it into your own software.
