

Geopolitical Risk, Policy and Trend Assessments

WE PROVIDE TAILORED CONSULTING SERVICES TO HELP YOU UNDERSTAND HOW GEOPOLITICAL RISK IMPACTS YOUR BUSINESS

Our Services

We provide our clients with tailored risk, policy and trend assessments from a macro (international) to a micro (national to subnational) level. Whether it is a daily morning intelligence briefing or a deep dive situation report, we will provide you with high quality analysis.

Perhaps you are interested in what the trade relationship between the United States and China will mean for your business. We will provide you with a detailed policy overview that will assist you in making decisions. Likewise, if you are expanding your business to another country, we can provide a full country risk report focusing on the political, military/security, economic, social, information and infrastructure (PMESII) situation there. In fact, we can even target that assessment into specific regions or municipalities within that country.

We want to get you the information that you need to make the right decisions for your organization.

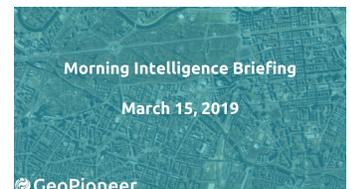

Our Deliverables

- National to Subnational PMESII Risk Report
- Daily or Ad Hoc Briefings Via PDF and/or Videoconference
- Policy Analysis Papers/Briefings
- Situation Alerts and Reports
- Courses of Action Development For Your Operations
